VINOL ON THE SQUARE DO NOT TAKE OUR WORD TRY IT ON A GUARANTEE

We agree to help you with Vinol or return your money.

That is what we call giving the consumer a square deal. We know that Vinol is the best body builder and strength creator for young and old—that money can buy—and we are willing to prove it to you at our risk.

We do not want anybody's money unless we can do them some good. "Value returned for value received" is our motto and always has been; upon this principle the fine reputation that Vinol enjoys has been built.

That is the reason we tell you what Vinol contains before you buy it. Would you pay \$5.00 for a bag of sugar without knowing how many pounds of sugar it contained? Of course you would not.

Why then should you take chances with your precious health by taking a medicine about which you know nothing. It might contain something that would hurt you.

For twenty years Vinol has been sold in your City and hundreds of your neighbors have been restored to health by it. If you have not taken it yourself you must know someone who has—and who knows from experience that money cannot buy a better remedy for all run-down and debilitated conditions—to restore strength after sickness—to make delicate children strong and robust—and bolster up the strength of old people.

Remember what we said in the heading of this notice—We will help you with Vinol or return your money.

A Danger Warning—Bleeding Gums

Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhea.

This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health.

In Pyorrhea, the gums become spongy, then recede; the teeth decay, loosen and fall out—or must be extracted to rid the system of the infecting Pyorrhea germs which breed in pockets about them. These germs lower the body's vitality and cause many diseases.

You can keep Pyorrhea away: Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums.

Forhan's For the Gums prevents Pyorrhea—or checks its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean.

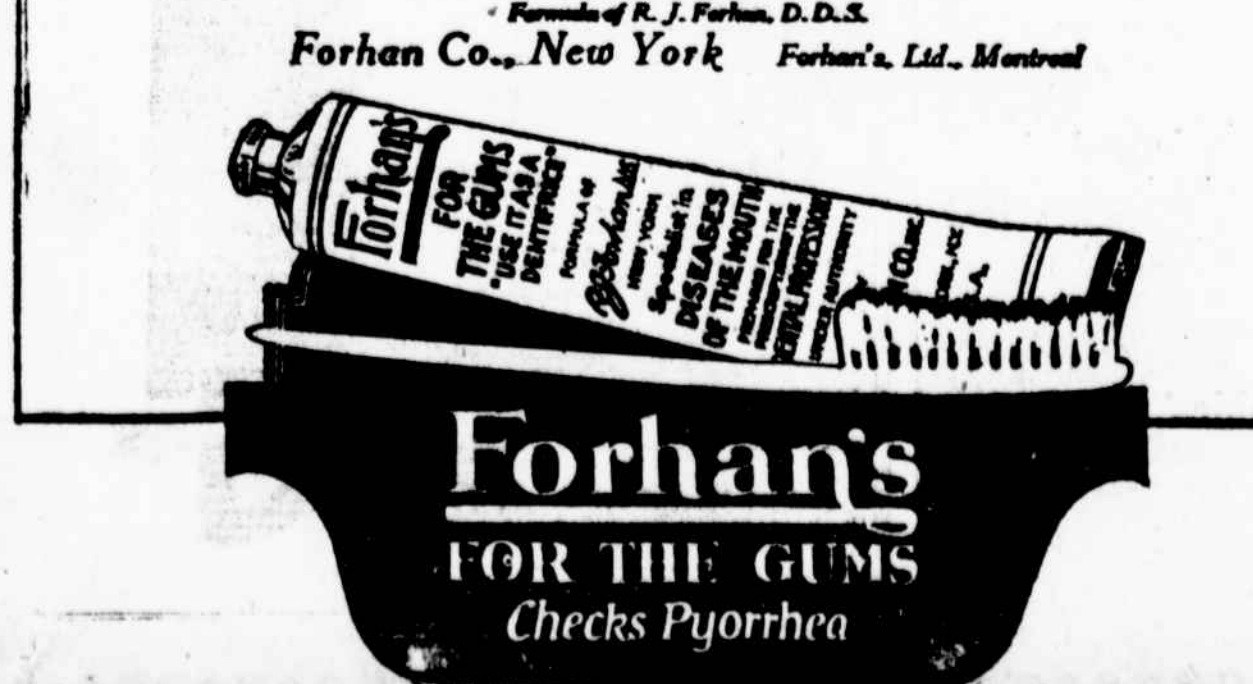

Brush Your Teeth With Forhan's—How to Use It

Use it twice daily, once in the morning and once at night. Wet your brush in cold water, place a half-inch of the refreshing, healing paste on it, then brush your teeth up and down. Use a rolling motion to clean the crevices. Brush the grinding and back surfaces of the teeth. Massage your gums with your Forhan's-brush—gently at first until the gums harden, then more vigorously. If the gums are very tender, massage with the finger, instead of the brush. If gum shrinkage has already set in, use Forhan's according to directions; and consult a dentist immediately for special treatment.

FAY KING'S "MIKE" THE SMARTEST CANARY IN THE WORLD

She Wouldn't Take \$10,000 for Him—Not Been Offered That

By FAY KING.

I hate to brag about my family, but I've got the smartest canary in the world.

His name is Michael Angelo.

I named him after that famous old painter, sculptor and decorator because the canary is somewhat of a decorator himself.

We call him Mike for short. Not only short for Michael Angelo, but short for "my canary."

Mike isn't a rare bird by any means in the way of song. He hits blue notes now and then and sometimes he doesn't sing for six months.

He has a decided taste in music. The record of an opera star means nothing in his life, and the record of bird imitation I bought him bores him to tears—but a good jazz band or Al Johnson—ah!

Mike gets the best of care. Every day his cage is cleaned up and spanned—the dab of sand, the cuttlefish bone, his bit of apple, and his soda cracker are always put in the same spot, so he knows just where to find them. Fresh seed every morning and fresh water two or three times a day.

It breaks my heart to see how some birds are neglected. Their food cups are placed where they can't get at them, or put in so carelessly there isn't room between the wires for the bird to get his little head through.

Some people pay a lot for a fine singer and then wonder why their bird doesn't sing. A bird must be perfectly happy to sing his best. Don't hang your bird in a draft. Throw a little cover over his cage at night with a cloth to shut out the light and cold air.

A fancy cage may be prettiest to look at, but it isn't best for your bird. Keep his perches clean.

Don't feed your bird candy or cake or soft bread—he cannot digest it. Be sure he has sand and cuttlefish—he needs it to grind his food in his little crop.

Don't let your bird hang in the hot sun against the window pane. It attracts the heat and evaporates his drinking water. Give him his little bath dish of cool water every other day.

A canary used to no other but cage life is content and happy and makes a wonderful pet, but don't buy him just for an ornament and treat him as such. They are very sensitive to their surroundings and need care.

I wouldn't take ten thousand dollars for Mike, but nobody has even offered me ten!
